

# MY CAT'S DIABETES DIARY

In order for your vet to be able to assess how stable your cat's diabetes is and whether or not their ProZinc dose needs adjusting it is important for them to know how they are doing at home. Completing this diary will help give your vet the information they need to best manage your cat's condition.

Cat's name: \_\_\_\_\_

Owner's name: \_\_\_\_\_

Monday's date: \_\_\_\_\_

Amount of ProZinc to be given each time: \_\_\_\_\_ units

Day	Units of ProZinc given		Drinking (tick one box)			Appetite (tick one box)			Other information, for example your cat's demeanour, sleep or activity level
	A.M.	P.M.	Reduced	Normal	Increased	Reduced	Normal	Increased
